

Cloning

Quotations "We've had cloning in the South for years. It's called cousins."

- Robin Williams

"I'm trying to grow more limbs in order to multi task at a greater rate and I'm also investigating the possibilities of cloning. Because nothing would be more useful than having multiples of me, and that way, I could do all of the things I'd like to do in the short amount of time we all have here."

- Ezra Miller
