

# Health Care System

**Quotations** "Effective health care depends on self-care; this fact is currently heralded as if it were a discovery."

- Ivan Illich

"Law has become a business. Health care has become a business. Unfortunately, politics has also become a business. That really undermines society."

- George Soros

## Questions

- Is health care in your country free? Why?
- Are doctors and nurses in your country paid well?
- What are the most important issues of health care in your country?
- How has health care globally changed for the last 75 years?
- Can government health care policy change how people vote?
- How can health care in your country be improved?
- Does your country spend a lot of money helping the old?
