

Science Fiction

Quotations "Sci-fi films are the epic films of the day because we can no longer put 10,000 extras in the scene - but we can draw thousands of aliens with computers."

- William Shatner

"The 'science' in 'science fiction' isn't just physics and engineering. It can also be linguistics, anthropology, and psychology."

- Ann Leckie

Questions

- How would you describe science fiction?
- What is your favorite science fiction film?
- Who is your favorite sci-fi character from films or TV?
- Who is your favorite science fiction author?
- Have you ever seen a sci-fi movie from the 1950s? How do you feel about those films?
- What is the scariest science fiction character you have ever seen?
- If you could write a sci-fi movie, what would it be about?
- Do you find it odd if a female is a science fiction fan?
- What is the difference between science fiction and fantasy?
- What types of people do you think are mostly interested in science fiction?
- Can you think of any ideas which were "science fiction" in the past that are now common?

Presentation On a piece of paper, write down the plot of your favorite science fiction story or character. Give your presentation to the class.
